

SOCKET LOADINGS

The list below is to be used as a guide to enable you to purchase the correct socket, if you require additional power.

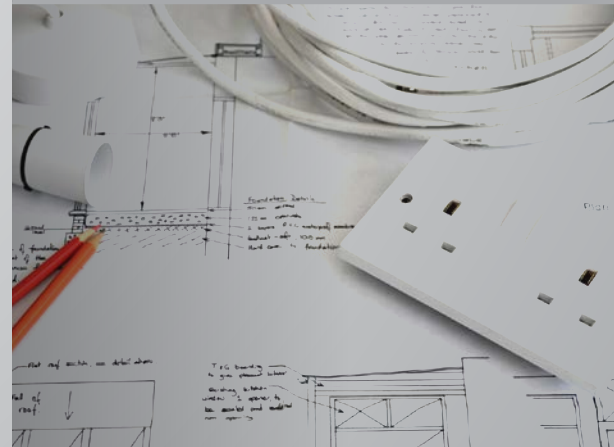

In order to use the equipment on your stand, the total wattage must not exceed the wattage of the socket.

Examples of what items can be run from each size socket are listed below;

500w socket (2 amp)	Phone charger, pop up stand lights, laptop, table lamp, 1 x Halogen light
1kw socket (1000w/ 5amp)	Small fridge, TV & DVD, Computers, Plasma screens, small Hoover
2kw socket (2000w/ 10amp)	Small kettle, Hoover, Microwave oven
3kw socket (3000w/ 13amp)	Kettle, coffee machine, cooking items with heating elements

If you require sockets larger than 3kw please contact our sales team.
